EXACTA RULES

Exacta Wagering Governed by Rules of the Delaware State Harness Racing Commission

Associations licensed by the Commission to conduct harness horse racing meetings, may with the approval of the Commission, conduct an Exacta Pool, Subject to the following rules:

1. The Exacta Pool is part of the pari-mutuel system of wagering. It is a contract by each participant to pick (select) the program number of the horse finishing first as the FIRST SELECTION and the program number of the horse finishing second as the SECOND SELECTION.
2. All sums deposited in the Exacta Pool shall be held in a single pool entirely separate from all other pools and the award or dividend to each winning participant shall be calculated subject to the provisions of this rule, as in a straight pool.
3. All Exacta tickets shall be sold at Daily Double windows and shall be clearly and immediately distinguishable from the Daily Double and other tickets sold.
4. All Exacta tickets shall be sold only from automatic double issuing machines.
5. No entries or field horses will be allowed in an Exacta race.
6. Except as provided in paragraphs (8), (9), (12) and (13) a winning Exacta ticket must combine the program number of the horse finishing first as the FIRST SELECTION and the program number of the horse finishing second as the SECOND SELECTION.
7. If a horse is scratched out of an Exacta race, all Exacta tickets combining the scratched horse with any other horse in that race will be refunded and the money so refunded will be deducted from the gross pool.
8. If no ticket is sold selecting the winner and the second horse to finish one-two, in that exact order, the net pool will be distributed as a Place Pool as provided in Rule 234 to the holders of tickets selecting the winner to finish first and the holders of tickets selecting the second horse to finish second.
9. If two horses finish in a dead heat to Win, the net pool will be distributed as a Place Pool to the holders of tickets on the two winning combinations. For example: If no. 4 and no. 6 finish in a dead heat to win, holders of tickets on 6 and 4 as well as holders of tickets 4 and 6 will share in the pool.
10. If two horses finish in a dead heat to place, the net pool will be distributed as a Place Pool to the holders of tickets on the two winning combinations. For example: If no. 3 is the winner and nos. 5 and 7 finish in a dead heat to place, holders of tickets combining 3 and 5, in that exact order, and holders of tickets combining 3 and 7, in that exact order will share in the net pool.
11. If there is a dead heat to Win or a dead heat to Place and no ticket has been sold on one of the winning combinations, the net pool will be distributed to the holders of tickets on the other combination.
12. If there is a dead heat to place and no ticket has been sold combining the winner with either one of the two horses finishing in the dead heat, the holders of tickets selecting the winner to finish first and the holders of tickets selecting either one of the dead heat horses to finish second will share in the net pool.
13. If only one horse finishes the Exacta race and is declared the official winner, the net pool will be distributed to the holders of tickets selecting that horse to win the race.
14. If, for any reason, the Exacta is cancelled or declared "No Race" full and complete refund shall be made of the Exacta Pool.

HOW TO READ PROGRAM

The horse's head number, saddle cloth number, program number, mutuel number and post position are the same except where there is an entry in the race. The initials immediately following the horse's name represent color and sex, figures denote age. The names following are the horse's sire, dam and sire of dam in that order. Under the horse's name are his lifetime earnings and lifetime record preceded by his age when record was made up to January 1 of the current year. Following the lifetime earnings is the name of the driver, his date of birth, weight and his colors. Next is the horse's best winning time on a half-mile, five-eighths, three-quarter or mile track for last year and the current racing season, followed by his starts and the number of wins, seconds, thirds in purse races and his money winnings. Beneath the horse's name are records of his seven most recent races. They read from bottom to top, therefore the top line is the horse's last race.

The date of the race is followed by the name of the track. All tracks are half-mile unless followed by the figure (1) which means that it is a mile track or ($\frac{3}{4}$) which is a three-quarter mile track, etc. Then is noted the Purse, condition of the track on the day of the race, the Conditions of the race or if a Claiming Race the Claiming Price. Race distance, time of leading horse at the $\frac{1}{4}$, $\frac{1}{2}$ and $\frac{3}{4}$ follow, then comes the winner's time. The figures that follow in order show the post position of the horse, his position at the $\frac{1}{4}$, $\frac{1}{2}$, $\frac{3}{4}$, stretch with lengths behind except for the leading horse whose number denotes lengths ahead, and finish with beaten lengths. If he was a winner, it shows how far ahead of the second horse and the losers show how far they were behind the winning horse. The next figure shows the horse's actual time in that race. Whenever a small "o" appears after the calls, it denotes that the horse raced on the outside at least one-quarter of a mile. In some instances these figures won't appear because the track at which the horse raced did not have its races charted. Then follows the closing odds to the dollar, the horse's driver, and the order of finish, giving the names of the first three horses.

GENERAL INFORMATION

RULE REGARDING STARTS

The Starter shall endeavor to get horses away in position and on gait, but no recall shall be had for a bad actor or a breaking horse. There shall be no recall after the word "GO" has been given.

The Starter may sound a recall only for the following reason:

1. A horse scores ahead of gate.
2. There is interference.
3. A horse has broken equipment.
4. A horse falls before the word "GO" is given.
5. When a horse fails to come to the gate before reaching ⅛ mile marker before the start, the field may be turned. The term FAILURE to come to the gate shall be interpreted to mean that the horse stops, turns and goes in a direction opposite from that of the starting gate, or is hopelessly outdistanced. Any driver deliberately creating such a situation shall be fined or suspended. Horses that break gait when the gate is once in motion are ON THEIR OWN, as a recall will not be had for this reason.

QUALIFYING RACES DO NOT NECESSARILY SHOW HORSES ABILITY, BUT MERELY SHOW THAT IT CAN MEET THE QUALIFYING STANDARDS AT THE TRACK.

When a trainer enters two or more horses in a stake, early closing, futurity, Free For All or other special event under bonafide separate ownerships, the said horses may, at the request of the association and with the approval of the Commission, be permitted to race as separate betting entries. The fact that such horses are trained by the same person shall be indicated prominently in the program.

COUPLED ENTRY SCRATCH

If, after wagering has begun on a race, a horse programmed to start as part of a coupled entry or field is scratched in such race, all betting upon such coupled entry or field shall cease and all money theretofore wagered upon such coupled entry or field shall be refunded. Notwithstanding the termination of betting upon all horses which are part of such coupled entry or field, the horse or horses in such coupled entry or field which are not scratched shall start in such race as non betting interests for the purse, and the finish of such horses in the race shall be disregarded for pari-mutuel purposes. Such circumstances shall be announced by public address and explained to the public at the time of such action.

QUINIELA RULES

Associations licensed by the Commission to conduct harness horse racing meetings, may, with the approval of the Commission, conduct Quiniela Wagering, subject to the following rules:

1. The Quiniela Pool is a part of the pari-mutuel system of wagering. It is a contract by each participant to pick (select) the first two horses to finish in a race. The order in which the horses finish is immaterial. The Quiniela is not a parlay and has no connection with or relation to win, place or show betting, and will be calculated in an entirely separate pool.
2. No entries or field horses shall be allowed to start in any race on which a Quiniela pool is conducted.
3. In case of a dead heat between the two horses for first place, the Combination shall be the winner of the Quiniela Pool.
4. In case of a dead heat between two horses for second place, the pool shall be figured as a Place pool, the holders of tickets combining the winning horse and the two horses finishing second participating in the payoff.
5. In case of a dead heat for second place, and no ticket is sold on one of the two winning combinations, the entire net pool shall be calculated as a win pool and distributed to those holding tickets on the winning combination.
6. If no ticket is sold on the winning combination of a Quiniela pool, the net pool shall be apportioned equally between those having tickets including the horse finishing first and those having tickets including the horse finishing second, in the same manner in which a place pool is calculated.
7. If no ticket is sold that would require distribution of a Quiniela pool to a winner as above defined, the licensee shall make a complete and full refund of the Quiniela pool.
8. In case of a scratch in a Quiniela race, the patron holding a ticket on the scratched horse will receive a refund.
9. Sale of Quiniela tickets other than through pari-mutuel machines or from one individual to another shall be deemed illegal and is prohibited.
10. Each Association shall print in heavy type in a conspicuous place in its printed program all the provisions of this section.
